SUMMARY

Computer Science graduate specializing in full-stack development, mobile application development with Flutter, and cloud-based solutions using Firebase. Experienced in building scalable applications integrating authentication, databases, REST APIs, and real-time functionality with a strong focus on clean code and modern UI/UX.

EDUCATION

Wayne State University

Detroit, MI

Bachelor of Science in Computer Science

May 2025

- GPA: 3.5 (Department GPA: 3.91)
- Dean's List: Fall 2023, Winter 2024, Fall 2024, Winter 2025
- Relevant Coursework: Data Structures and Algorithms, Problem Solving and Programming, Software Engineering, Database Management Systems, Operating Systems, Computer Architecture and Organization, Web Technologies, Java Programming, Python Programming.

EXPERIENCE

Helping Hand for Relief and Development

Apr. 2021 – Present

Financial Data Analyst

Southfield, MI

- Managed financial transactions including checks, Electronic Funds Transfers (EFTs), and donation processing
- Tracked, documented, and reconciled financial contributions with high accuracy
- Analyzed donor data and supported outreach strategies across multiple countries
- Maintained financial records and assisted with internal audits and funding allocation reviews
- Contributed to the Donor Care Team by crafting and formatting donor communications to maintain engagement

HomeGoods by TJX

Dec. 2019 – Apr. 2020

Sales & Inventory Associate

Troy, MI

- Assisted customers with product inquiries, purchases, and transaction accuracy
- Handled inventory tracking, restocking, and periodic audits in a fast-paced retail environment

PROJECTS

Customer Orders Tracker – GM (Frontend Developer) | *Firebase, JavaScript, HTML/CSS*

Winter 2024

- Built a real-time web platform for managing GM parts orders
- Implemented Firebase Authentication with 2FA using email and phone verification
- Designed a responsive, user-friendly interface and deployed using Firebase Hosting

Modern Business Solutions (Full Stack Dev) | *Flutter, Firebase, ZEGOCLOUD*

Fall 2025

- Developed a cross-platform business planning and management application using Flutter
- Implemented secure authentication, reminders, cloud storage, and KPI visualization
- Integrated video conferencing to support real-time team collaboration

Twitter Clone (Lead Dev) | *PHP, MySQL, JavaScript*

Winter 2024

- Engineered a full-stack social media platform with secure authentication and session management
- Implemented core features including posts, likes, follows, image uploads, and profile customization

Facial Recognition Application (Lead Dev) | *Python, OpenCV, DeepFace*

Fall 2024

- Built a real-time facial recognition system using webcam input
- Predicted age, gender, race, and dominant emotion using DeepFace
- Designed a desktop GUI using tkinter

TECHNICAL SKILLS

Languages: Java, Python, PHP, C++, C, Dart, JavaScript, SQL, HTML, CSS

Frontend: Flutter, HTML5/CSS3, Bootstrap, Responsive UI, Tailwind

Backend & Cloud: Firebase Cloud Functions, REST APIs, PHP, MySQL, Firestore

Mobile: Flutter, Firebase Auth, Cloud Messaging, Local Notifications

Tools: Git, GitHub, VS Code, Android Studio, IntelliJ, XAMPP, Postman

Concepts: UI/UX Design, Clean Architecture, Agile, CI/CD
