Other: REST APIs, Agile, CI/CD, UI/UX Design, Problem-Solving

PROJECTS

Customer Orders Tracker – GM | Firebase, JS, HTML/CSS

- Built a real-time platform for GM parts management, reducing lookup time by 40%.
- Implemented Firebase 2FA and role-based access control.
- Designed a responsive UI/UX for desktop and mobile accessibility.

Facial Recognition App | Python, OpenCV, DeepFace, Flask

- Built a real-time facial recognition tool capable of predicting age, gender, and emotion.

Modern Business Solutions App | Flutter, Dart, Firebase, Firestore, Cloud Functions

- Developed a cross-platform business planning app for real-time data visualization of KPIs.
- Integrated Firebase authentication, push notifications, and reminders for deadlines.
- Implemented video conferencing via ZegoCloud API for remote collaboration.

Twitter Clone | PHP, MySQL, JavaScript, HTML/CSS

- Engineered a full-stack social media platform with secure authentication and session management.
- Developed core features: post creation, likes, follows/unfollows, and profile customization.
